Empower everyone, Act for sustainable development

Control our **natural resources**

Calculation of your ecological footprint, history of waste through hygiene, preservation of resources, valorisation ... all subjects covered through games, exhibitions, films ...

Control our **energy**

Discover how our waste are transformed into energy. What are the issues of renewable energies? How does the UVE contribute to give environmental guarantees?

Climate and greenhouse effect

Presentation of a film about the global warming and illustration of the concrete actions to be taken by each of us.

Inaugurated 27th November 2006 by Nelly Olin, Minister for Ecology and of the Sustainable development, the circuit of visit has for ambition to " Empower everyone, Act for sustainable development ".

Accessible to all, school groups, communities, tourist groups, associations and individuals, its objective is to make sensitive in the notions concerning the sustainable development, the waste treatment and the energy production.

The visit is accompanied by a guide of the SIVERT. maximum 40 people by group (possibility two groups subject to reservation).
